THE TELOPEA ROOM · 2027

ROOM LAYOUTS AND CAPACITIES

Eight ways to set the room, drawn to scale, from a board meeting for 24 to a party for 220.

THE TELOPEA ROOM

One room on Level 1, about 15 m by 15 m, with glass on the lake side and doors straight onto the deck.

The room opens onto the outdoor deck and Lake Burley Griffin on one side and the Easy Oar cafe on the other. The kitchen and servery are right next door, so food comes straight in from our own kitchen.

Two screens sit at the glazing end, and three sets of doors open onto the deck. We set the room up around your event, so if you don't see your format here, ask us.

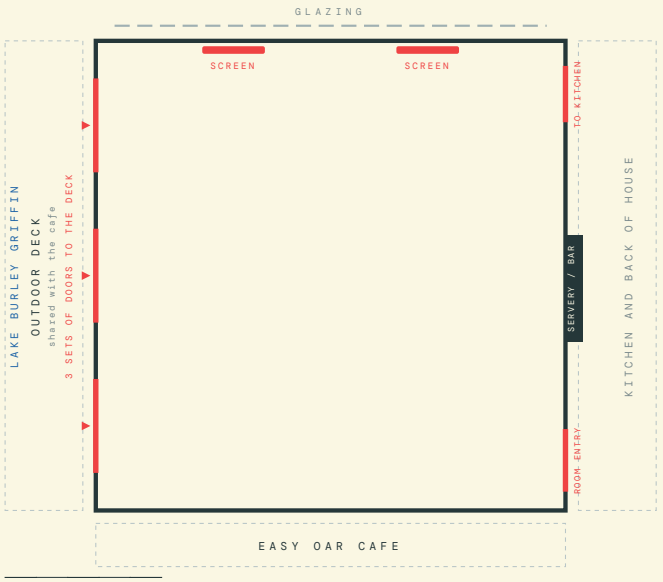
HOW THE ROOM SITS



GOOD TO KNOW

Every layout is indicative and approximately to scale. Final capacity depends on staging, catering style, AV and access.

The outdoor deck is shared with the Easy Oar cafe. Exclusive use of the deck can be arranged at additional cost.

Red Shed is a working club, so rowing, gym and cafe activities carry on around your event.
